INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED AMENDMENTS

1) Heading of Part: Animal Diagnostic Laboratory Act

2) Code Citation: 8 Ill. Adm. Code 110

3) Section Numbers: Proposed Action:

110.20	Amend
110.120	Amend

4) Statutory Authority: AN ACT authorizing the Department of Agriculture to establish animal disease laboratories (Ill. Rev. Stat. 1987, ch. 8, par. 105.11).

5) A Complete Description of the Subjects and Issues Involved:

The new address of the Galesburg laboratory is shown so persons submitting samples will submit them to the proper address.

Because the Department has received a number of requests for laboratory results to be faxed to veterinarians, we have added this service. Herd owners need results of tests for exhibition or movement of the animal, and some times they do not allow sufficient time for test results to be returned by mail prior to movement. The charge for this service is set at the going rate that laboratories in surrounding states charge.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this proposed amendment contain incorporations by reference? No

9) Are there any other amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: Rule does not affect units of local governments.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

A public hearing on the proposed amendments will be held on November 28, 1989, at 1:30 p.m., Department of Agriculture, State Fairgrounds, Springfield, Illinois. Persons unable to attend the hearing may present their comments on the proposed rulemaking in writing to the Director, Department of Agriculture Agriculture, State Fairgrounds, Springfield, Illinois 62794-9281. Mailed comments must be postmarked no later than November 23, 1989, so they will be available for consideration at the public hearing. All comments received will be fully considered by the agency and the Advisory Board of Livestock Commissioners.

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED AMENDMENTS

The public hearing on the proposed rulemaking will run concurrent with a public meeting of the Advisory Board of Livestock Commissioners.

This proposed rulemaking may have an impact on small businesses. In accordance with Section 3.01 and 4.03 of the Illinois Administrative Procedure Act, small businesses may present their comments to the Director as outlined above.

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: Sept. 25, 1989

B) Types of small businesses affected: Veterinarians and persons (e.g., herd owners) using the services of the animal diagnostic laboratory.

C) Reporting, bookkeeping or other procedures required for compliance: Upon request of the person submitting samples, the Department will report the results of tests by facsimile (FAX); the fee for such service is established.

D) Types of professional skills necessary for compliance: Basic management.

4) Statutory Authority: Illinois Bovine Brucellosis Eradication Act (Ill. Rev. Stat. 1987, ch. 8, pars. 134.12, 136, 136b, 137, 139, 139.4)

5) A Complete Description of the Subjects and Issues Involved:

Sections 75.50, 75.90, 75.160, 75.180, and 75.200: Strain 19 vaccine, which is used to immunize cattle against bovine brucellosis, is an attenuated live organism. This produces a vaccinal infection thereby increasing the antibiotic levels and resistance to field strains of the organism.

Unfortunately in some cattle, the serological titer following vaccination will persist in adult animals. If the vaccinal titers exist after 24 months of age, the titer is considered as a result of infection because it is impossible to differentiate infection from vaccination.

If a bovine female has a titer at 23 months of age, it probably will have a titer at 25 months of age, which will present a serious problem with the movement of the animal, and also the status of the herd where the animal is located. By moving the age at which vaccinal titers are given exception from 24 months to 20 months, problem animals will be identified at an early age, and hopefully, prevent herd problems as fully matured cattle.

The national recommendation is to test beef cattle after 24 months of age and dairy cattle after 20 months of age. Illinois is the only state that presently permits dairy cattle to be 24 months of age before a test is required. We believe that one age should be used rather than a different age for dairy and beef. For these reason, we are lowering the test age for all vaccinated cattle to 20 months of age.

In Section 75.50, the Department pays the federal indemnity for cattle destroyed when federal funds are not available and the State has indemnity funds available. The current U.S. Department of Agriculture rate for

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED AMENDMENTS

brucellosis indemnity on non-registered beef cattle is now $50; hence, the change from $150 to $50.

In Section 75.120, the name and address of the national organization that approves the Brucellosis Eradication Uniform Methods and Rules has been added to comply with the Illinois Administrative Procedures Act.

In Section 75.190, the incidence of brucellosis from Class B states is being steadily reduced which makes the classification of Certified Brucellosis-free herds much more reliable. There are presently no Class C states. For these reasons, we are reducing the additional expense of retesting breeding cattle from certified Brucellosis-free herds.

In Section 75.120 and 75.210, updating the federal code cite and the Illinois law cite are intended to keep the cites up-to-date and will not add any additional compliance requirements.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this proposed amendment contain incorporations by reference? None requiring JCAR approval under Section 6.02(b) of the Illinois Administrative Procedure Act.

9) Are there any other amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: Rule does not affect units of local governments.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

A public hearing on the proposed amendments will be held on November 28, 1989, at 1:30 p.m., Department of Agriculture, State Fairgrounds, Springfield, Illinois. Persons unable to attend the hearing may present their comments on the proposed rulemaking in writing to the Director, Department of Agriculture Agriculture, State Fairgrounds, Springfield, Illinois 62794-9281. Mailed comments must be postmarked no later than November 23, 1989, so they will be available for consideration at the public hearing. All comments received will be fully considered by the agency and the Advisory Board of Livestock Commissioners.

The public hearing on the proposed rulemaking will run concurrent with a public meeting of the Advisory Board of Livestock Commissioners.

This proposed rulemaking may have an impact on small businesses. In accordance with Section 3.01 and 4.03 of the Illinois Administrative Procedure

Act, small businesses may present their comments to the Director as outlined above.

12) Initial Regulatory Flexibility Analysis:

B) Types of small businesses affected: Owners of cattle; veterinarians

C) Reporting, bookkeeping or other procedures required for compliance:

We have lowered the test age for all vaccinated cattle to 20 months.
The indemnity that will be paid on non-registered beef cattle if federal funds are not available is lowered to $50.

Section 85.50 Goats

a) Part A -- Brucellosis in Goats

1) When a serologic test for brucellosis in goats discloses one or more reactors, the entire herd shall be placed under quarantine and the reactor(s) immediately isolated from the remainder of the herd, reactor tagged and branded, and slaughtered. After removal of the reactor(s), the entire herd shall be retested at time intervals and the number of times as requested by the Division. The length of the quarantine period shall be determined by the Division.

2) All brucellosis agglutination blood tests of goats shall be made at an approved laboratory.

b) Part B -- Requirements for Establishing and Maintaining Certified Brucellosis-Free Herds of Goats

Box 28176, Suite 205, 6924 Lakeside Avenue, Richmond, Virginia 23228-0176) and as outlined for cattle certificate revocation in the Brucellosis Eradication Uniform Methods and Rules, effective July 1, 1986, published by the United States Department of Agriculture, Animal and Plant Health Inspection Service, shall be issued by the Division.

B) Certificates shall be extended for a period of one year upon evidence of a negative herd retest and compliance with all requirements for maintenance of a certified brucellosis-free herd.

B) Animals classified as suspects, in herds that are otherwise negative, must be retested at 30-day intervals until their status has been determined. If the suspects are sold or otherwise disposed of before their status has been determined, the entire herd must be retested to achieve a negative herd status. If the suspects are classified as reactors upon retest, the herd is considered to be infected. Diseased goats may only be consigned directly to a slaughtering facility and must be accompanied by a "Permit for Movement, VS Form 1-27".

C) If on the initial herd test, or as a result of any retests of animals in the herd, one or more reactors are disclosed, the entire herd shall be placed under quarantine and the reactor(s) immediately isolated from the remainder of the herd, reactor tagged and branded, and slaughtered. After removal of the reactor(s), the entire herd shall be retested at time intervals and the number of times as requested by the Division. The length of the quarantine period shall be determined by the Division.

C) Purchased additions shall not receive new herd status for sale or exhibition purposes until they have been members of the herd for at least 30 days and are included in a complete herd retest.

c) Part C -- Requirements for Establishing and Maintaining Accredited Tuberculosis-Free Herds of Goats

1) General Requirements

A) Accredited tuberculosis-free herd certificates, which shall be valid for one year, unless revoked in accordance with the procedures outlined in the Bovine Tuberculosis Eradication Uniform Methods and Rules, effective March 31, 1988, as amended February 3, 1989, Part III B, Accredited Herd Plan for Dairy Goats, shall be issued by the Division (9 CFR 77.1 (1989 ~~1988~~)).

If the animal is identified as a reactor as a result of the comparative-cervical test, personnel from either the Illinois Department of Agriculture or the United States Department of Agriculture will issue a quarantine, supervise disposition of animals, and conduct additional tests on members of the herd.

3) To Qualify for Reaccreditation

A) A negative herd test conducted within 60 days prior to the anniversary date is required for continuous accreditation. Upon receipt of a negative herd test, the Division shall extend accreditation for 12 months from the anniversary date.

B) If the annual test for reaccreditation is conducted within 60 days following the anniversary date, certification will be restored and the accreditation period will be 12 months from the anniversary date.

2) A minimum of 90 percent of the herd shall have been on the premises for at least 90 days OR shall have originated direct from another qualified pseudorabies negative herd.

3) If positive swine are disclosed in a herd in the process of becoming a qualified pseudorabies negative herd, the positive animals shall be immediately isolated from the remainder of the herd and be disposed of for slaughter OR be maintained on another premises separate and apart from that where the negative swine are maintained. The herd shall then be recognized as a qualified pseudorabies negative herd when it has complied with the provisions of Section 115.40(a)(1).

4) A qualified pseudorabies negative herd may be established without a complete herd test if all the swine originate from qualified pseudorabies negative herds and only after the first quarterly test or 25% of the herd has been tested. This test shall include a representative sample of all groups that were purchased to make up the herd.

b) Maintenance Requirements:

1) Qualified pseudorabies negative herd status is maintained by subjecting all swine over 6 months of age in the herd to an official pseudorabies serologic test at least once each year (this shall be accomplished by testing 25% of swine over 6 months of age every 80 to 105 days and finding all swine so tested negative, or by testing 10% of the swine over 6 months of age each month and finding all swine so tested negative) ~~shall be maintained continuously by a negative retest of 25 percent of the qualified herd approximately each 90 days (80-105 days) OR 10 percent of the qualified herd at approximately each~~

Unless cattle are being returned to the farm of origin, they shall be identified by an ear tag provided by the Division and by branding with a hot iron the letter "S" on the left jaw in letters not less than 2 nor more than 3 inches in height, before the cattle leave the livestock auction market.

NOTICE OF PROPOSED AMENDMENTS

1) Heading of Part: Marketing Center (Livestock)

2) Code Citation: 8 Ill. Adm. Code 45

3) Section Numbers: Proposed Action:

45.20	Amend
45.150	Amend

4) Statutory Authority: Livestock Auction Market Law (Ill. Rev. Stat. 1987, ch. 121 1/2, pars. 208, 210, 211.5, 213, 215 and 215a, as amended by P.A. 86-231, effective August 15, 1989).

5) A Complete Description of the Subjects and Issues Involved:

Section 45.20 has been amended to reflect language that is quoted from the Act, and statutory reference to where the language can be found has been added. Language that is not a direct quote of the statutes has been placed in lower case.

Further, Section 45.20 has been amended to require all out-of-state cattle consigned to a marketing center to be accompanied by a permit issued by the Division or by a consignment document, but not both. The current language requires both the consignment document and the permit. The Department has determined that either document will meet our needs for determining compliance with Illinois requirements.

In Section 45.150, we are updating references to the Livestock Auction Market Law, as amended, and the latest printed version of the federal rules. The cite to the Act, as amended, will not impose any additional compliance requirements not already statutorily imposed and is intended to keep the statutory references up-to-date. Citing the latest printed version of the federal code will assist the public in locating the rules and keep the federal code cites up-to-date.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this proposed amendment contain incorporations by reference? None requiring JCAR approval under Section 6.02(b) of the Illinois Administrative Procedure Act.

9) Are there any other amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: Rule does not affect units of local governments.

Persons unable to attend the hearing may present their comments on the proposed rulemaking in writing to the Director, Department of Agriculture Agriculture, State Fairgrounds, Springfield, Illinois 62794-9281. Mailed comments must be postmarked no later than November 23, 1989, so they will be available for consideration at the public hearing. All comments received will be fully considered by the agency and the Advisory Board of Livestock Commissioners.

The public hearing on the proposed rulemaking will run concurrent with a public meeting of the Advisory Board of Livestock Commissioners.

This proposed rulemaking may have an impact on small businesses. In accordance with Section 3.01 and 4.03 of the Illinois Administrative Procedure Act, small businesses may present their comments to the Director as outlined above.

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: Sept. 25, 1989

B) Types of small businesses affected: Marketing centers; out-of-state owners or shippers of cattle.

C) Reporting, bookkeeping or other procedures required for compliance:
Updating cites to the Act and federal rules are for convenience in locating the documents.
The owner of out-of-state cattle entering Illinois need only obtain a permit from the Division or a consignment document; presently the rule requires both documents accompany the cattle. Placing language in lower case does not alter present requirements.

D) Types of professional skills necessary for compliance:
Basic management and recordkeeping.

Section 100.10 Requirements for Establishing and Maintaining Validated Brucellosis-Free Herds of Swine

a) General Requirements

1) Validated brucellosis-free herd certificates are issued cooperatively by the Division and the Animal and Plant Health Inspection Service.

2) Validation shall be extended upon evidence of compliance with the requirements for maintenance of a validated brucellosis-free swine herd as provided in this rule.

3) All blood samples for validation or revalidation shall be collected by an accredited veterinarian~~, or by a technician at a Market Swine Testing approved~~

~~collection point~~ and shall be submitted for diagnosis to an approved laboratory. Information concerning ~~approved collection points and~~ approved laboratories can be obtained from the Department, Division of Animal Industries. The veterinarian should indicate on each test chart that the test is being conducted to qualify a swine herd for validation or revalidation.

4) Initial tests to qualify for validation shall be made at owner's expense except as specified under paragraph (b)(2) of this Section.

5) A "validated herd" shall consist of at least 5 animals and shall be considered as including all animals in the herd 6 months of age or over. All swine being held for feeding purposes, separate and apart from breeding swine, are exempted from herd test requirements.

6) Any purebred animal OR any inbred or hybrid animal registered with a livestock registry association shall be identified by registration number, registry association approved individual tattoo, ear notch, or an ear tag. Any grade animal shall be identified by an ear tag or tattoo. If any animal is retagged between ~~annual~~ tests, the identification of the previous test ~~year~~ shall be shown on the test chart opposite new retag number.

b) To Qualify for Validation

1) Herds which have shown no previous infection may be validated upon completion of one negative herd test of all breeding swine 6 months of age and over. Validation applies to all offspring, including Specific Pathogen-Free (SPF) pigs from such herds.

2) When reactors are disclosed in a herd in the process of becoming validated, the entire herd is placed under quarantine and the reactors shall be immediately isolated from the remainder of the herd. The reactor animals shall be tagged in the left ear with a reactor identification tag, disposed of within 15 days of report by the laboratory, a report of disposal made to the Division, and the entire herd subjected to brucellosis retests at intervals of not less than 30 nor more than 90 days. Quarantine will

be released upon completion of one negative complete herd test; completion of two consecutive negative complete herd tests will qualify a herd for validation. (Complete herd retest for release of quarantine shall be at State expense, provided funds are available.)

c) Maintenance Requirements

1) Validated brucellosis-free herd status is maintained by subjecting all swine over 6 months of age in the herd to an official brucellosis serologic test at least once each year (this shall be accomplished by testing 25 percent of swine over 6 months of age every 80 to 105 days and finding all swine so tested negative, or by testing 10 percent of the swine over 6 months of age each month and finding all swine so tested negative). If the members of the validated herd are maintained on more than one premises, 25 or 10 percent of the swine on each premises shall be retested as required. If the 25 or 10 percent retests are not conducted when due, the revalidation requirements shall then be the same as for initial validation. ~~Herds may be revalidated annually by one of the following methods:~~

~~A) By a negative test of all breeding swine, 6 months of age and over, conducted within 10 to 14 months of the last validation date.~~

~~B) By testing a minimum of 20 percent of the breeding swine, 6 months of age and over, during the year under the Market Swine Testing (MST) Program by either of the following OR by a combination of both:~~

~~i) Blood samples collected at time of slaughter by a technician at a plant where swine are routinely sampled.~~

~~ii) Blood samples collected by an accredited veterinarian at a farm or some other convenient location within 7 days prior to shipment of culled swine for slaughter purposes.~~

~~C) At least one-half of the MST coverage must be obtained during the last 6 months of the validation period. Individual MST results to sup-~~

~~port this method of revalidation shall be maintained by the herd owner and be furnished to the Division when the herd is due for revalidation.~~

~~B) By a test of 25 percent of the validated herd approximately each 90 days (80-105 days) or 10 percent of the validated herd at approximately each 30 days (25-35 days). Breeding stock in the herd 6 months of age and over shall be included in the 90 or 30-day test. The same animals shall not be retested for revalidation purposes in any 12-month period.~~

2) Reactors: ~~If as a result of any retest of a validated herd or animals from a validated herd:~~

~~A) One reactor is disclosed on complete herd test, the entire herd is placed under quarantine and the reactor animal shall be immediately isolated from the remainder of the herd. The reactor shall be tagged in the left ear with a reactor identification tag, disposed of within 15 days of report by the laboratory, a report of disposal made to the Division, and the entire herd subjected to a retest not less than 30 nor more than 90 days following test on which the reactor was revealed. A negative test will qualify the herd for release of quarantine and revalidation. (Complete herd retest for release of quarantine may be at State expense, provided funds are available.)~~

~~B) More than one reactor is disclosed, the herd will be considered again in the process of validation as under paragraph (b)(2) of this Section.~~

~~C)~~ If reactors are disclosed ~~under the MST~~ or on the 25 percent quarterly or 10 percent monthly test programs, the herd will be quarantined and the validated herd status suspended until a herd test is conducted. Such test may be at State expense, provided funds are available. The herd test should be conducted within 30 days of disclosure of the reactor. A negative test will qualify the herd for release of quarantine and revalidation. If additional reactors are disclosed, the herd will be considered again in the process of validation as under paragraph (b)(2) of this Section.

3) Additions to Validated Brucellosis-Free Swine Herds:

A) Native Animals:

i) Animals originating directly from a validated herd in good standing, without test (owner shall furnish proof of same to the Department), or

ii) Animals from non-validated herds provided they have passed a negative test within 60 days and are held in isolation from the validated herd until passing a second negative test at least 60 days but not more than 90 days after the first test in the case of boars, or open gilts, or after farrowing in the case of bred sows and gilts.

B) Animals From Out-of-State: All animals from out-of-state accompanied by an approved interstate health certificate, showing compliance with Illinois entry requirements as defined in Section 4 of the Act, may be added to a validated herd, if they qualify as follows:

i) Animals originating directly from a validated herd in good standing, without test (owner shall furnish an official health certificate to the Department), or

ii) Animals from non-validated herds provided they have passed a negative test within 30 days prior to addition, and are held in isolation from the validated herd until passing a second negative test at least 60 days but not more than 90 days after the first test, in the case of boars and open gilts, or after farrowing in the case of bred sows and gilts.

C) Additions are not recognized as a part of the validated herd until the required negative retests have been reported to the Illinois Division of Animal Industries.

5) A Complete Description of the Subjects and Issues Involved:

Updating the statutory cite to the Feeder Swine Dealer Licensing Act, as amended, will not impose any additional compliance requirements. This Act was amended to authorize the Department to impose monetary penalties, and the reference to the public act is intend to keep statutory cites up-to-date.

It is illegal to feed raw garbage to swine anywhere in the United States and in keeping with recent legislative changes, we have deleted the requirement that the health certificate indicate that the swine have not been fed raw garbage.

The national pseudorabies program that has been adopted by the U.S. Animal Health Association is the Pseudorabies Eradication State-Federal-Industry Program Standards and an adoption date has been added. The criteria for classifing states as Stage IV or Stage V will not create any additional compliance requirements on swine owers.

Certain areas in adjoining states have a very high level of pseudorabies infected swine. The serological test required to permit the interstate movement of such swine will not detect early infection. Therefore, a percentage of the breeding swine must be retested and negative to an official test for pseudorabies conducted not less than 30 days nor more than 90 days after entering Illinois.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

5) A Complete Description of the Subjects and Issues Involved:

P.A. 86-813, effective September 7, 1989, amended the Illinois Industrial Training Program (ITP) by adding four eligible activities for which ITP grants may be awarded. These activities are as follows: training of new or existing employees of Illinois companies that seek to develop new overseas markets for products or services; customized training of employees of companies located in the state enterprise zones; training of existing employees of manufacturing facilities that are implementing quality control programs, but are not making new capital investments; and self-employment training of the unemployed and underemployed with comprehensive, competency-based instructional programs and services.

To accommodate these changes the rules were recodified (effective September 13, 1989) and are now being divided into three subparts: "SUBPART A: GENERAL REQUIREMENTS", "SUBPART B: INDUSTRIAL FIRMS AND MAJOR EMPLOYER APPLICANTS", and "SUBPART C: SECONDARY AND POST-SECONDARY EDUCATION INSTITUTION APPLICANTS". Any references to Sections within this Part have been corrected to correspond to the recodified text. The general program requirements found in Sections 2650.10 through 2650.50 of Subpart A have been expanded to include provisions for the new legislation. Since P.A. 86-813 expanded the eligible program activities, provisions for application procedures,

DEPARTMENT OF NUCLEAR SAFETY

NOTICE OF PROPOSED AMENDMENTS

1) The Heading of the Part: RADIATION SAFETY REQUIREMENTS FOR WIRELINE SERVICE OPERATIONS AND SUBSURFACE TRACER STUDIES

2) Code Citation: 32 Ill. Adm. Code 351

3) Section Number: 351.1080 — Proposed Action: Amendment

4) Statutory Authority: Implementing and authorized by Sections 6 and 6b of the Radiation Protection Act (Ill. Rev. Stat. 1987, ch. 111½, pars. 216 and 216b), and Section 5 of "AN ACT in relation to personnel radiation monitoring" (Ill. Rev. Stat. 1987, ch. 111½, par. 230.15).

5) A Complete Description of the Subjects and Issues Involved: This amendment is being proposed to modify current performance testing requirements applicable to sealed radioactive sources used in downhole well logging operations. The Department is proposing to repeal the current requirement that each sealed source be certified as meeting the performance testing requirements. Instead, the Department is proposing that only prototypes of such sources be tested. This change is being proposed because there are no firms that will perform tests on used sealed sources and because prototype testing will provide adequate protection of public health and safety. According to the U.S. Nuclear Regulatory Commission, "there have been almost no sealed source failures reported for this source category." (54 Federal Register 30884, July 25, 1989)

6) Will this proposed amendment replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this proposed amendment contain incorporations by reference? Yes. The proposed rule incorporates by reference the testing requirements contained in United States of America Standard Institute, Standard No. N5.10-1968 and American National Standard Institute, Standard No. N542-1977.

9) Are there any other proposed amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: The requirements imposed by the proposed rulemaking are not expected to require local governments to establish, expand, or modify their activities in such a way as to necessitate additional expenditures from local revenues.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking: Comments on this proposed rulemaking may be submitted in writing for a period of 45 days following publication of this notice. The Department will consider fully all written comments on this proposed rulemaking submitted during the 45 day comment period. Comments should be submitted to:

Betsy Salus
Senior Staff Attorney
Department of Nuclear Safety

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: September 29, 1989

B) Types of small businesses affected: The Department believes that the Amendment will have a beneficial impact on small businesses engaged in well logging operations. The proposed amendment will relieve such businesses from an unnecessarily burdensome requirement.

C) Reporting, bookkeeping or other procedures required for compliance: No reporting, bookkeeping, or other procedures would be required for compliance.

D) Types of professional skills necessary for compliance: No particular professional skills are necessary for compliance.

1) be of the sealed source is doubly encapsulated construction;

2) contain the sealed source contains radioactive material whose chemical and physical forms are insoluble and non-dispersible; and

3) has been individually pressure tested to at least 24,656 pounds per square inch absolute (170 MN/m^2) without failure a prototype of the sealed source has been tested and meets the performance standards for oil well logging sources contained in either the United States of America Standards Institute (USASI) Standard No. N5.10-1968 or the American National Standards Institute (ANSI) Standard No. N542-1977 (1978 edition), exclusive of subsequent amendments or editions A copy of USASI Standard No. N5.,10-1968 and ANSI Standard No. N542-1977 are available for public inspection at the Department's offices, 1035 Outer Park Drive, Springfield, Illinois.

4) Statutory Authority: Sections 4-1.6 and 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1987, Ch. 23, Pars. 4-1.6 and 12-13)

5) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the institutionalized spouse's income to be set aside and used by the community spouse or for the benefit of the community spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

114.270 Amendment

4) Statutory Authority: Sections 6-1.2 and 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1987, Ch. 23, Pars. 6-1.2 and 12-13)

5) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the institutionalized spouse's income to be set aside and used by the community spouse or for the benefit of the community spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

Section 190.70 Loan Loss Accounting Procedures

a) For the purpose of absorbing and reporting loan losses, all credit unions must establish, at a minimum, the following accounts in the general ledger:
 1) Reserve for Loan Losses - A portion of the statutory Regular

DEPARTMENT OF FINANCIAL INSTITUTIONS

NOTICE OF ADOPTED AMENDMENT(S)

Reserve segregated and reported as a direct reduction of loans.

2) Provision for Loan Losses - An expense account, immediately preceding dividend expense, used to reflect the cost of losses on loans.

b) The Reserve for Loan Losses (RLL) is initially established by a one-time transfer from the Regular Reserve (RR), and is to be maintained at a level which would enable the absorption of all loans which this rule requires the credit union to charge off (this does not include loans or applicable portion of loan balances which are recoverable, as explained hereafter), and an amount computed using the past six calendar years' experience rate. Separate RLL's are to be established for loans secured by real estate and for those loans not so secured. Except as provided herein no subsequent transfer from the Regular Reserve is permitted after the initial establishment of the Reserve for Loan Losses.

c) The experience rate, which is used to determine the minimum required RLL, is computed by dividing the total of the past six years' net loan losses by the total of the last six years' December 31 loan balances. In the case of a new credit union not having a 6-year experience rate for loss loans, an evaluation on the available data is used.

d) The following are the minimum criteria for determining a loss loan:

1) Any loan delinquent in contractual payments in an amount equal to 12 or more months;

2) Any loan on which the borrower has taken bankruptcy;

3) Any loan which was previously over 12 months delinquent, has been refinanced and has subsequently become delinquent in an amount equal to 3 monthly contractual payments or more; or

4) Any account placed in the hands of a collection agency or attorney where a percentage of the collected amount is retained by the collector or attorney as a fee for the collection service, and which is delinquent or which subsequently becomes delinquent in contractual payments in an amount greater than 6 months.

e) Before every dividend declaration and/or every closing date, all loans in the above categories and any other loan on which there is an anticipated loss, must be charged off to the RLL; however, such loans or applicable portions need not be charged-off if there is substantial objective evidence that the loan balance or a portion can be recovered and the credit union has taken appropriate action to effect recovery. The credit union's records must categorize all loans according to the above-estimated loss criteria and contain evidence used to substantiate the continued carrying of a loan as an asset if the loan is in a loss category. The RLL must then be replenished using the Provision for Loan Losses Account (PLL), to the minimum required level based on the experience rate.

f) When making the year-end statutory Regular Reserve transfer, any amounts already taken as a PLL during the year may be deducted from the total transfer required to the extent of the transfer. If the PLL exceeds the statutory transfer an amount equal to this excess may be transferred at the option of the credit union to the undivided

earnings account from Regular Reserve, if necessary, to pay the expenses of the period covered by the statutory transfer.

g) Nothing in this section shall be applicable to the establishment of a Reserve for Loan Losses account for business loans. Reference must be made to Section 190.165 of this Part for the establishment of a Reserve for Loan Losses account for business loans.

4) loans for any one to four family owner-occupied parcel of real estate as long as the borrower/owner maintains the subject property as his primary residence.

5) loans fully secured or fully guaranteed by an agency of the federal government or of a state or any of its political subdivisions.

c) Business Loans shall only be granted by credit unions with assets greater than $5.0 million and only after a request of amendment to by-laws for such has been approved by the Director of the Department of Financial Institution. The request must be accompanied with specific lending policies which shall address, but not be limited to:

These factors must be reflective of a safe and sound financial operation (in accordance with Ill. Rev. Stat. 1987, ch. 17, pars. 4409, 4410, 4437, and 4462).

e) Credit unions authorized to make business loans must not exceed 10% of the credit unions reserve to any one member or group of associated members. Credit unions seeking an exception to this limit must present in writing the increased limits sought, an explanation of the need for increased limits, the credit union's previous business lending experience and an up-to-date financial statement.

f) Reserve for Loan Losses (RLL) for Business Loans.

1) Reserve for Loan Losses (RLL) for Business Loans will be determined and accounted for by the credit union as follows:

Delinquent Loans	Classification	% of Outstanding Balance Required in RLL
2 to 5 months	Slow	10%
6 to 11 months	Doubtful	50%
12 months & over	Loss	100%

2) Nondelinquent loans may also be classified in the above categories by the Department, dependent upon an evaluation of factors, including, but not necessarily limited to, the adequacy of credit union's analysis and documentation of the loan application, and

DEPARTMENT OF FINANCIAL INSTITUTIONS

g) Credit unions authorized to make business loans may make member business loans to its directors, officers, credit committee members and supervisory committee members provided that the loan complies with all lawful requirements as set forth in this Section and in Section 52 of the Illinois Credit Union Act and is not on terms more favorable than those extended to other borrowers.

h) Credit unions authorized to make business loans shall not grant member business loans if the amount of income desired/received by the credit union is tied to the profit of the business in the form of an equity participation.

i) Credit unions are prohibited from making business loans where the payment amount fluctuates with the earnings of the business/borrower.

(Source: Added at 13 Ill. Reg. 15998, effective October 2, 1989)

Section 190.180 Investments

NOTICE OF ADOPTED AMENDMENTS

11) Difference Between Proposal and Final Version:

In response to public comments submitted on these proposed amendments, the Department made the following changes in the text of the amendments:

1. The following language was added at the end of the first portion of the definition of "ambulatory surgical treatment center" in Section 205.110: "as evidenced by use of the facilities by physicians or podiatrists in the performance of surgical procedures which constitutes more than 50 percent of the activities at that location."

2. The definition of "ambulatory surgical treatment center" in Section 205.110 was revised by combining and rewording the three paragraphs of the definition which define the statutory term "place." The phrase "located within an institution or building" was added after the word "place" at the beginning of this paragraph. The final portion of this paragraph was reworded to read as follows: "This provision shall include any place which meets the definition of an ambulatory surgical center under the rules of the federal Health Care Financing Administration (42 CFR 416). However, when such a place is located within and operated in conjunction with the offices of a single physician or podiatrist, or a group of physicians or podiatrists, it shall not be considered an ambulatory surgical treatment center, unless: it meets the definition of and has expressed an intent to apply for certification as an ambulatory surgical center under the rules of the federal Health Care Financing Administration (42 CFR 416); or it is used by physicians or podiatrists who are not part of the practice; or it is utilized by the physicians or podiatrists for surgical procedures which constitute more than 50 percent of the activities at that location." In the revised wording, the phrase "qualifies for certification as" was replaced with the phrase "meets the definition of." The word "however" was added. References to podiatrists were added in locations which refer to physicians. The proposed clause "is primarily devoted to the performance of surgical procedures which qualify for payment when performed in ambulatory surgical centers under the rules of the federal Health Care Financing Administration (42 CFR 416.65)" was replaced with the following clause: "meets the definition of and has expressed an intent to apply for certification as an ambulatory surgical center under the rules of the federal Health Care Financing Administration (42 CFR 416)." The phrase "and is not available for use by any other physician or podiatrist," was relocated for clarity and reworded to read, "or it is used by physicians or podiatrists who are not part of the practice." Finally, at the end of this provision, the following language was added: "or it is utilized by the physicians or podiatrists for surgical procedures which constitute more than 50 percent of the

activities at that location."

3. The wording of Section 205.118(e)(3) was changed. This provision as proposed read: "Any remodeling or other change in the facility's physical plant which affects the interviewing, examination, surgical or recovery room space." The provision was revised to read: "Any remodeling or other change in the facility's physical plant which increases or decreases the number of rooms in which surgical procedures are performed."

4. In Section 205.120(b)(9), the phrase "subject to the approval of the Director or his physician designee" was replaced with the phrase "subject to approval in accordance with the requirements of Section 205.130." This change insures that this provision is consistent with Section 205.130 and the parallel wording in Section 205.125(b)(8).

5. In Section 205.125(d) the word "renewal" was added.

6. In Section 205.130(a), the following language was added after the second sentence: "All new procedures shall be approved by the center's consulting committee prior to submission to the Department."

7. The following language was added to Section 205.130(c): "The Department will only disapprove a procedure following review and concurrence in the disapproval by the Director or by a qualified physician designated by the Director."

8. Section 205.130(f) was expanded by the addition of the following language: "The Department will seek the recommendations of medical specialty and other professional consultants concerning the safety of specific procedures, when it determines that such consultation is necessary to determine whether to approve or disapprove the specific procedures. The Department will also consider any additional information submitted by medical specialists and other professionals and by medical specialty and other professional societies in making these determinations."

9. A new Section 205.130(j) was added, which reads: "The Department will evaluate the information submitted under subsection (g) and any notification required under subsection (h). The Department will notify the facility that a procedure is disapproved and may no longer be performed on a conditional basis, when the evaluation indicates that the safety of the procedure has not been established." Subsections (j) and (k) were redesignated as subsections (k) and (l) to accommodate this addition.

10. Section 205.520(b) was divided into two subsections. Subsequent

subsections were redesignated to accommodate this change.

11. Section 205.520(c)(2) was amended to replace the reference to "local anesthesia with sedation" with a reference to "intravenous sedation." A new subsection (c)(3) was added to refer to procedures "performed with spinal or epidural anesthesia" and a new subsection (c)(4) was added to refer to procedures "performed with any other specific anesthesia technique designated by the consulting committee." Section 205.520(b)(3) was redesignated as subsection (c)(5).

12. In Section 205.520(f)(1), the reference to "local anesthesia with sedation" was replaced with a reference to "intravenous sedation, spinal or epidural anesthesia, or any other specific anesthesia technique designated by the consulting committee."

13. In Section 205.540(a), the following clause was deleted: "who have had general anesthesia, local anesthesia with sedation, or a pregnancy termination."

Several typographical corrections were also made in response to questions from the Administrative Code Division. No other changes were made in the text of the proposed amendments.

12) Have all the changes agreed upon by the Agency and the Joint Committee been made as indicated in the agreement letter issued by the Joint Committee?

The Department has made all the changes to which it agreed with the Joint Committee on Administrative Rules.

13) Will this Rulemaking Replace an Emergency Rule Currently in Effect? No.

14) Are there any other Amendments Pending on this Part? No.

15) Summary and Purpose of Rules:

These amendments to the requirements for the licensure of ambulatory surgical treatment centers make a number of changes. They revise the definition of ambulatory surgical treatment centers, clarify the licensure application procedures, add a process for the approval of specific surgical procedures, and revise requirements for preoperative and postoperative evaluation of patients. The amendments were developed in consultation with the Ambulatory Surgical Treatment Center Licensing Board and were approved by the Board at its meeting on May 31, 1989, in Chicago.

Definition Revisions

The changes in the definition of ambulatory surgical treatment centers define the statutory term "place" which has not previously been defined. The changes will also insure that the definition conforms more closely to the definition of an ambulatory surgical center adopted by the federal Health Care Financing Administration for certification of facilities to participate in the Medicare program. Recent changes in the interpretation of the federal definition and the lack of any definition of the statutory term "place" provide the opportunity for the Department to insure that these definitions are consistent. The Ambulatory Surgical Treatment Center Licensing Act defines an ambulatory surgical treatment center as "any institution, place, or building devoted primarily to maintenance and operation of facilities for the the performance of surgical procedures." These amendments add an explicit definition of this statutory language to Section 205.110. The effect of the amendment will be to expand the scope of coverage of facilities to include places, such as surgical suites, which qualify as surgical centers.

Changes in the physical plant requirements to accomodate surgical suites and other centers which may be part of larger buildings or institutions have been included in the amendments. These changes allow centers to share certain types of facilities with the other businesses or operations in the same building. These changes are included in Sections 205.1320, 205.1350, and 205.1390.

Section 205.115 has been amended to add the federal rules which are referenced in the revised definition and in Section 205.130(d). These federal regulations govern participation in the Medicare program.

Application Process

The addition of new Sections 205.118 and 205.125 and changes in Section 205.120 clarify the procedures for initial application for licensure and the procedures for annual renewal of licensure. New Section 205.118 contains basic licensure conditions, including the submission of financial and ownership information. As amended, Section 205.120 specifies the specific information which must be submitted in an initial licensure application. New Section 205.125 contains the procedures for annual renewal of licensure, including the specific information which must be submitted by the center to the Department.

The Department believes that these changes will eliminate confusion about the information which must be submitted and clarify the application process. The changes also reference the addition of the procedure for the approval of specific surgical procedures.

Approval of Specific Surgical Procedures

The Department has added Section 205.130 to provide a process and criteria for the approval of the specific surgical procedures which may be performed in an ambulatory surgical treatment center. Under the statute, the Department is responsible for approval of the list of procedures which a surgical center wishes to perform. However, the Department's rules did not contain criteria for the approval process prior to the addition of Section 205.130.

The amendments provide that the Department will disapprove procedures which may be life-threatening and cannot be safely performed on an out-patient basis. The rules allow centers to perform some procedures on a conditional basis, while information concerning the safety of the procedure is being submitted. Several safeguards to protect patients are included in the rules for surgical procedures which would be performed on a conditional basis.

Preoperative and Postoperative Evaluation

Changes which have been made in Section 205.520 clarify the requirements for preoperative anesthesia evaluations of patients by the center. Changes which have been made in Section 205.540 clarify the requirements for discharge of patients. The Department believes that these clarifications will enhance the current safeguards to insure the quality of care provided in these surgical centers.

15) Summary and Purpose of Rules:

1100.40 - Part 1150 is proposed to be repealed thus making Part 1100 and Part 1110 applicable.

1100.220 - The definition involving a substantial change in scope is being modified to add the term "at a site." A definition of site is also added. The basis for this change is to prevent corporations which may operate several facilities under one license from shifting services or adding services utilizing the argument that all sites represent only one licensed entity.

1100.560 - The need formula does not adjust correctly for state admissions and will be modified.

1100.570 - The Board has elected to eliminate all grandfathering. Facilities, as no cut-off on grandfathering has previously been made, have tried to utilize this process to avoid review.

1100.630 - As ESRD units usually do not require major construction to establish the formula is to be amended from a five- to a two-year projection.

1100.660 - The Board is proposing to establish a bed need use rate ceiling to reduce bed need in high bed density areas.

There is no economic effect anticipated through this rulemaking. The Department anticipates that this rulemaking will become effective six to nine months from the date of publication as proposed in the Illinois Register.

16) Information and Questions regarding this Adopted Rulemaking shall be directed to:

Planning areas by category of service are delineated in the Appendices to 77 Ill. Adm. Code 1110.

"Site" means the location of a provider or a proposed project as determined by street address or legal property description.

"STATE BOARD" MEANS THE HEALTH FACILITIES PLANNING BOARD ESTABLISHED BY THE ACT. (Section 3 of the Act)

"Subcategory of Service or Level of Care" means a specific degree of, type of, or approach to patient/resident care within a defined category of service. Specific subcategories of service or levels of care are listed under each category of service.

"SUBSTANTIALLY CHANGES THE BED COUNT OF A HEALTH CARE FACILITY" MEANS CONSTRUCTION OR MODIFICATION, INCLUDING ACQUISITION OF EQUIPMENT, WHICH CHANGES THE BED CAPACITY OF A HEALTH CARE FACILITY BY INCREASING OR DECREASING THE TOTAL NUMBER OF BEDS OR BY DISTRIBUTING BEDS AMONG VARIOUS CATEGORIES OF SERVICE OR BY RELOCATING BEDS FROM ONE PHYSICAL FACILITY OR SITE TO ANOTHER BY MORE THAN 10 BEDS OR MORE THAN 10% OR TOTAL BED CAPACITY AS DEFINED BY THE STATE BOARD, WHICHEVER IS LESS, OVER A 2 YEAR PERIOD. (Section 3 of the Act) The two year period begins on the date when additional beds added to the facility inventory become operational or when beds were discontinued. When a permit is granted which will result in a change in bed capacity, the applicant facility may not add or discontinue any more beds in those services affected by the permit for 2 years from the date that such beds become operational (or are discontinued) without obtaining an additional permit from the State Board. The facility may add or discontinue beds (as long as the number added or discontinued does not exceed 10 beds or 10% of the total facility capacity over the 2 year period) in the other services not affected by the permit. Each facility will be contacted annually to verify bed inventory. If there is found, through this verification process, an increase or decrease in the calculated

bed capacity of the facility, the State Agency shall determine the date the two year period begins. The date shall be published in the next available compilation of the Inventory of Health Care Facilities and Need Determinations by Planning Area.

It should be noted that all proposed capital expenditures (including those which do not substantially change the bed capacity) in excess of the capital expenditure minimum require a permit, regardless of the purpose or nature of the project or transaction. However, it should also be noted that proposals for less than the capital expenditure minimum including those with no capital expenditure, also require a permit if the project or transaction is for a substantial change in the facility's bed capacity.

"SUBSTANTIALLY CHANGES THE SCOPE OFR CHANGES THE FUNCTIONAL OPERATION OF THE FACILITY" MEANS CONSTRUCTION OF MODIFICATION, INCLUDING ACQUISITION OR ALTERATION OF EQUIPMENT, FOR THE PURPOSE OF: instituting at a site an additional or different category of service as defined in "Category of Service". (Section 3 of the Act)

It should be noted that all proposed capital expenditures (including those which do not substantially change the scope) in excess of the capital expenditure minimum require a permit, regardless of the purpose or nature of the project or transaction. However, it should also be noted that proposals for the capital expenditure minimum or less including those with no capital expenditure, also require a permit if the project or transaction is for a substantial change in the facility's scope or functional operation.

"Use Rate" means the ratio of inpatient days occurring to the population of an area expressed in days per 1,000 population over a 12-month period.

"Utilization" means patterns or rates of use of a single service or type of service. Use is expressed in rates per unit of population at risk for a given period.

"Variance" means an exception to computed need based upon criteria or conditions as outlined in the planning policies for various categories of service.

~~17) Determine the number of children/adolescent beds needed by dividing the product of step 16 by the occupancy factor of .85 (85%).~~

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

~~18) Add the number of adult beds needed (as determined in step 8) and the number of children/adolescent beds needed (as determined in step 17) to determine the planning area's bed need for the category of service.~~

1) A bed need of .4 beds per 1,000 population is established in each planning area as the need baseline.

2) Calculate a state facility bed need per 1,000 population by dividing the total number of state beds utilized for Acute Mental Illness (AMI) service by the state population in thousands.

3) Subtract in each planning area the calculated state facility bed need per 1,000 population from the .4 per 1,000 population baseline to obtain an adjusted bed need rate.

4) Calculate an AMI adjustment factor by dividing private sector AMI admissions by the combined total private sector AMI and Substance Abuse admissions.

5) Multiply the adjusted bed need rate (step 3) by the AMI adjustment factor (step 4) to obtain a service adjusted bed need rate.

6) Divide the adjusted bed need rate from step 5 by an occupancy target of .85 then multiply the occupancy adjusted rate by the projected area population in thousands to arrive at the initial bed need.

7) Adjust the planning area bed need for migration:

A) determine the number of patients entering the planning area and the number of area residents leaving the planning area for acute mental illness service;

B) multiply the total number of patients entering the planning area by 20 to obtain in-migration days of care;

C) multiply the total number of patients leaving the planning area by 20 to obtain out-migration days of care;

D) multiply both the in-migration and out-migration days of care totals by a .85 adjustment factor;

E) subtract the smaller adjusted migration days of care total from the larger adjusted migration days of care total to determine the net patient day migration total (If the out-migration is largest the area is a net out-migration area while the reverse is true if in-migration days is the larger figure.);

AGENCY NOTE: Patient migration adjustment is for a one year period and the base year shall be the date of the latest available patient origin data.

F) divide the net in or out patient day migration total by 365 to determine the average daily census for migration;

G) in the case of a net in-migration add the average daily census for migration to the initial bed need (step 6). In the case of a net out-migration, subtract the average daily census for migration from the initial bed need to obtain the calculated number of beds needed;

8) Calculate the number of additional beds needed in each area by subtracting the number of existing beds in private sector facilities from the calculated number of beds needed.

AGENCY NOTE: The bed need may be further adjusted by an applicant for the purpose of the variances (77 Ill. Adm. Code 1110.730(c)(2)(C)) for age groups by multiplying the bed need per planning area by the percentage of area population in the specific age group (i.e. if 60% of an area's population was 18 and over then 60% of needed beds would be for this age group).

Section 1100.570 Substance Abuse Beds

a) Planning Areas: HSAs as defined by the Department of Health and Human Services pursuant to the National Health Planning and Resources Development Act (42 U.S.C. 300K).

b) Age Groups: all ages

c) Occupancy Targets (Developed based upon historical data):

Service	Occupancy Targets--Modernization and Construction	
Substance Abuse	All units	90%

d) Bed Capacity: Substance Abuse bed capacity is the lesser of measured bed capacity or functional bed capacity per individual room.

e) Bed Need Determination-Substance Abuse

The State Board recognizes that there is a need for facilities and beds for the treatment of substance abuse and encourages the establishment of these beds outside of inpatient facilities and state-operated facilities. Therefore, this Subchapter does not specify or program bed need for substance abuse, although all substance abuse facilities and their beds are inventoried by the Agency. It is the responsibility of the applicant to justify the number of beds needed in any proposed project by complying with the Review Criteria contained in 77 Ill. Adm. Code 1110: Subpart I.

~~f) Establishment of Substance Abuse Inventory~~

~~The adoption of a substance abuse category of service represents the combination of the alcoholism category of service and chemical dependency which was a sub-category of the medical/surgical category of service. To accurately compile an inventory of providers of substance abuse services the following conditions are established relative to the "grandfathering" of providers into the substance abuse category of service. Facilities shall be recognized as having the substance abuse category of service, if as of April 30, 1986, documentation can be provided of one or more of the following:~~

~~1) The facility was recognized by the Illinois Health Facilities Planning Board as a provider of the Alcoholism category of service; or~~

~~2) The facility operated an inpatient rehabilitation program for substance abuse which was recognized for reimbursement by third party payors; or~~

~~3) As of April 30, 1986, the facility has operated a chemical dependency program which has the following characteristics:~~

~~A) The program has been operated within a distinct bed unit whose sole purpose is substance abuse-~~

~~rehabilitative-treatment;~~

~~B) That such unit has its own organized professional staff; and~~

~~C) That there is a process which establishes a written plan of rehabilitative treatment for each patient treated within the unit.~~

Section 1100.630 End Stage Renal Disease

a) Planning Areas: HSAs as defined by the Department of Health and Human Services pursuant to The National Planning and Resources Development Act ~~(P.L. 93-641, 1978)~~ are utilized in the review of Renal Dialysis Centers or facilities. The entire State of Illinois is the planning area for Renal Transplantation Centers.

b) Utilization Standards:

Renal Dialysis Centers or facilities must operate at a minimum of 80 percent utilization rate, assuming 2 patient shifts per day per renal dialysis station operating 6 days a week.

c) Need Determination-End Stage Renal Dialysis:

The end stage renal disease station need is a two-year projection from the base year. The need for treatment stations can be estimated utilizing the following methodology:

1) Determine the patient population receiving dialysis services in the base year.

2) Determine the number of new patients who will need dialysis services by adding a net increase of 56 new patients per million population annually.

3) Add the number of patients currently in dialysis (Step (1)) to the number of new patients expected (Step (2)) to determine maximum projected population volume.

4) Adjust the maximum projected population volume by subtracting a 10% annual attrition rate due to death and successful transplantation.

5) Adjust the projected projected patient volume determine in (Step (4) downward by subtracting a projected number of

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

patients who will receive home dialysis. This projection is based on the percentage of patients receiving home dialysis within the planning area in the base year when that percentage exceeds 12.4 percent. When the percentage falls below 12.4 percent, a minimum percentage of 12.4 percent will be applied.

6) Utilizing the adjusted projected patient volume determined in (Step (5) determine the total number of estimated institutional procedures per year by multiplying the projected patient volume from (Step (5) by an average number of procedures per patient per year (156). This utilization rate is based on a 3 times weekly treatment schedule.

7) Determine the number of dialysis stations needed by dividing the number of estimated procedures per year (Step (6)) by a recommended average procedures per year of 500 which is based on an optimal 80% utilization rate.

Section 1100.660 General Long-Term Care Beds

("General Long-Term Care" is defined in 77 Ill. Adm Code 1110.1720(a)).

a) Planning Areas:

1) Planning Areas for the Chicago Health Service Area. The City of Chicago is divided into geographic units called community areas. In delineating planning areas, community areas were combined taking into account socio-economic data, long-term care patient origin studies conducted by the Department of Public Health, the distribution of beds and facilities serving the existing population, the relationship of existing facilities to other health care facilities including acute care facilities and the planning guidelines specified above. Particular attention was given to areas which have limited accessibility and to time-distance factors within the City. This Plan establishes 11 planning areas for the City of Chicago.

2) Planning Areas for the Suburban Cook and DuPage Counties Health Service Area. Planning areas for the suburban Cook County and DuPage County health service area were based on combinations of townships utilizing the guidelines and socio-economic factors previously stated. Twelve planning areas are established within this health service area.

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

3) Planning Areas for Other Health Service Areas.

A) Based upon an analysis of socio-economic data, patient origin studies, and planning guidelines, it was determined that planning areas should be coterminous with county boundaries for HSAs outside of Cook and DuPage counties.

B) In some instances, it was necessary to combine counties in order to have a sufficient population base to provide a broad range of services.

b) Age Groups: 0-64, 65-74 and 75 and over.

c) Occupancy targets ("Modernization" target based upon historical data and "Construction" target based upon 5 years projected data):

Service	Occupancy Targets--Modernization and Construction	
General Long-Term Care	Modernization	85%
	Construction	90%

d) Categories of Service:

Bed need for the General Long-Term Care Classification of Facilities will be calculated for the Nursing Category of Service Only which includes the skilled nursing level of care and/or the intermediate nursing level of care.

e) Minimum Use Rate:

In assessing the bed need for the Nursing Category of Service, minimum use rates are established in order to promote the development of beds in underserved areas, the formula developed evaluates current facility usage by age groups (0-64, 65-74 and 75 and over) as reflected throughout the entire HSA:

1) Calculation of HSA Use Rates. In order to evaluate a planning area's use rate (patient days per 1,000 population), it is first necessary to determine the overall HSA use rates by age group (0-64, 65-74 and 75 and over).

2) Minimum Rates. To establish a minimum use rate for each age group, the calculated HSA use rate for each age group is multiplied by .6 (60%).

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

f) Maximum Use Rate:

In order to prevent the over-development of beds in a planning area, a ceiling on the use rate for each HSA is established.

1) Calculation of HSA use rates. In order to evaluate a planning area's use rate it is necessary to determine the overall HSA use rates by age group (0-64, 65-74 and 75 and over).

2) Maximum rates. To establish a maximum use rate for each age group, the calculated HSA use rate for each age group is multiplied by 1.6 (160%).

~~f~~g) Formula or Planned Use Rate:

1) Each planning area's experienced use rate is then calculated for each of the age groups by dividing the total number of patient days attributed to an age group (in all area facilities) by the current planning area population within the same age group (expressed in thousands).

2) The experienced use rates established by planning area, the HSA maximum use rates (by age group) and the HSA ~~health~~ service area minimum use rates (by age group) are multiplied by the projected age group populations for the HSA ~~planning~~ area.

3) The results of ~~both~~ the "experienced use rate calculations" and the "HSA minimum and maximum use rate calculations", are ~~calculated~~compared. ~~Between the~~ minimum and experienced use rate calculations ~~the approach~~ which yields the higher projected "day" total ~~shall be~~ utilized in the projection of "beds needed" with ~~the use~~ rate figures utilized, reflected as the "formula or ~~planned use rate~~. The experienced use rate is utilized in the formula if it is between the minimum and maximum totals. If the experienced use rate exceeds the maximum the maximum rate is utilized. If it falls below the minimum the minimum use rate is utilized in the need projection.

~~g~~h) Bed Capacity: General Long-Term care bed capacity is the licensed bed capacity for the service.

~~h~~i) Total Bed Need for General Long-Term Care is determined by:

1) Multiplying the formula or planned use rate for each age group by the planning area's projected population (in

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

thousands) for each age group to obtain the projected or planned patient days for each age group for that area;

2) The three age group projections are summed to reflect "total area projected patient days";

3) Dividing the projected patient days by 365 (days) to obtain the projected average daily census;

4) Dividing the projected average daily census by the 90% occupancy factor to obtain the total number of beds needed; and

5) Subtracting the number of existing beds in the area from the total number of beds needed to see is additional beds are needed in the area or if an excess number of beds exist.

Proposed:

Section 1110.50 Recognition of Preexisting Services

a) Preexisting Services

Upon the expiration of thirty days following the effective date of this regulation, the Health Facilities Planning Board will no longer accept petitions from any facility seeking to prove that a particular service was in existence prior to Board regulation. As of that date, persons seeking recognition of a category of service must file an application for establishment unless a specific provision exists within this Section regarding the preexistence of particular category of service.

b) Service Specific Provisions

The Health Facilities Planning Board has established the following provisions:

1) Due to revisions in the licensure standards for Ambulatory Surgical Treatment Centers, recognition of pre-existing providers of the category of service

can occur. Facilities shall be recognized as having the ambulatory surgery category of service if documentation is submitted demonstrating that:

a) outpatient surgery had been performed at the project site prior to January 1, 1989; and

b) the need to obtain a license as an ambulatory surgical treatment center was brought about due to revisions in licensure standards; and

c) the facility was certified for Medicare reimbursement for ambulatory surgery as of January 1, 1989.

Amended:

Section 1110.50 Recognition of Services Which Existed Prior to Permit Requirements

Upon the expiration of thirty days following the effective date of this regulation, the State Board will no longer accept petitions from any person seeking to prove that a particular category of service was in existence at a health care facility prior to the effective date of Board regulations requiring a permit for establishment of that service. As of that date, persons seeking recognition of a category of service must file an application for permit and receive approval for establishment of that service unless a specific provision exists within this Part regarding recognition of the category of service by the State Board.

Section 1110.55 Recognition of Non-hospital Based Ambulatory Surgery Category of Service

a) Due to proposed revisions in Section 205.110 of the Agency's licensure standards for ambulatory surgical treatment centers, the State Board shall recognize the existence of the non-hospital based ambulatory surgery category of for unlicensed facilities which become subject to such licensure requirements if the following documentation is submitted to the State Board:

1) Verification that outpatient surgery had been performed at the facility prior to January 1, 1989; and

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

2) Verification that due to revisions in Section 205.110, the facility must obtain a license as an ambulatory surgical treatment center; and

3) Verification that the facility was certified for reimbursement under Title XVIII for ambulatory surgery on or before January 1, 1989.

b) Recognition by the State Board of the non-hospital based ambulatory surgery category of service exempts the facility from the requirement of obtaining a permit for establishment of a health care facility and establishment of the service. Such exemption shall be valid and remain in effect provided that the following requirements are met:

1) the procedures and scope of services provided at the facility remain restricted to the medical specialty(ies) (e.g. podiatry, ophthalmology, plastic surgery) in operation on or before January 1, 1989; and

2) the facility has obtained a license from the Agency no later than January 1, 1991; and

3) the facility has petitioned the State Board for recognition of the service no later than 90 days after the effective date of the revisions to Part 205.110.

c) Upon issuance of a license by the Agency, the ambulatory surgical treatment center is subject to the provisions of the Act regarding subsequent transactions which require permit. Failure to comply with any of the requirements of 1110.52b or subsequent discontinuation of the facility will void the recognition and exemption, and a permit will be required to establish the category of service.

d) The provision of this section shall take effect upon the effective date of revisions to Section 205.110.

2. Section 1110.2220 Extracorporeal Shock Wave Lithotripsy--Definitions

Proposed:

Section 1110.2220 Extracorporeal Shock Wave Lithotripsy--Definitions

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

"Extracorporeal Shock Wave Gall Stone Lithotripsy" means a category of service which utilizes shock waves induced from outside the body to destroy gall stones.

"Extracorporeal Shock Wave Kidney Lithotripsy" means a category of service which utilizes shock waves induced from outside the body to destroy kidney ~~(or other)~~ stones.

"Extracorporeal Shock Wave Lithotripters" are those pieces of equipment which exert high pressure on kidney (or other) stones by means of shock waves, introduced from outside of the body, so that the stones crumble into sand-grain-sized particles.

Amended:

Section 1110.2220 Extracorporeal Shock Wave Lithotripsy--Definitions

"Extracorporeal Shock Wave Gall Stone Lithotripsy" means a category ~~of service which utilizes~~ shock waves induced from outside the body to destroy gall stones.

"Extracorporeal Shock Wave Kidney Lithotripsy" means a category of service which utilizes shock waves induced from outside the body to destroy kidney (or other) stones.

"Extracorporeal Shock Wave Lithotripters" are those pieces of equipment which exert high pressure on kidney (or other) stones by means of shock waves, introduced from outside of the body, so that the stones crumble into sand-grain-sized particles.

3. Section 1110.2230 Extracorporeal Shock Wave Lithotripsy--Review Criteria

Proposed:

Section 1110.2230 Extracorporeal Shock Wave Lithotripsy--Review Criteria

a) Initial Introduction of Equipment--Review Criteria

1) It is determined that approximately 5,000 candidates for kidney stone extracorporeal shock wave lithotripsy would occur annually.

2) The Illinois Health Facilities Planning Board has

determined that six pieces of equipment designed to treat kidney stones ~~is~~are sufficient to meet the needs of the Illinois population.

3) The Illinois Health Facilities Planning Board has determined that in the case of gall stone extracorporeal shock wave lithotripsy, only one piece of equipment is needed ~~at this time in order to study the effectiveness of this treatment modality~~to meet the needs of the Illinois population.

b) Location--Review Criterion

Due to the large population needed to generate sufficient kidney stone caseload for machine efficiency, it is essential that proposed locations for kidney stone lithotripsy be geographically accessible to a population group of at least 2 million persons. In order to achieve accessibility, four machines shall be located in the Chicago S.M.S.A. (within the Chicago City limits) and two downstate in locations which will serve a population of 2 million persons who currently are unserved by existing equipment. An "unserved" population shall be considered those individuals who reside outside the primary market area of existing kidney lithotripter services.

c) Multi-Institutional Systems--Review Criterion

Due to the large primary markets for equipment for both kidney stone and gall stone lithotripsy ~~of this type~~services, it is essential that no restrictions on access be established by the applicant. The applicant proposing to acquire a ~~kidney~~ lithotripter must:

1) contact those facilities within its primary market (a geographic area reflecting at least 80 percent of all hospital admissions utilizing the equipment) in an effort to establish formal referral agreements. If such a system cannot be accomplished the applicant must indicate why a multi-institutional system cannot be established; and

2) contact those facilities which are located within the estimated primary market area of the innovative equipment indicating the availability of the equipment and a contact person to discuss patient admission for the service; and

3) indicate in writing to the State Agency: admission policies for the service, procedures for acceptance of referrals, and a statement insuring that no restrictive admission policies will be established.

d) Staffing-Review Criterion

The applicant must document the number, type and professional qualifications of all personnel involved with the operation of the equipment. Also, the applicant must document the availability of surgical support for the removal of stones and organ repair.

e) Data Collection--Review Criterion

1) The State Agency shall collect data from all available sources for purposes of studying the efficacy of this equipment.

2) The applicant must document that it will provide utilization data, clinical data, and reports of clinical efficacy in comparison to other forms of treatment. The applicant must also document that it will provide a representative from the institution as a liaision to the State Board for purposes of annual data collection. A letter stating that, if approved, the applicant will participate by providing the required data and representative, will constitute sufficient documentation.

An "unserved" population shall be considered those individuals who reside outside the primary market area of existing kidney lithotripter services.

c) Multi-Institutional Systems--Review Criterion

Due to the large primary markets for equipment for both kidney stone and gall stone lithotripsy ~~of this type~~ services, it is essential that no restrictions on access be established by the applicant. The applicant proposing to acquire a ~~kidney~~ lithotripter must:

1) contact those facilities within its primary market (a geographic area reflecting at least 80 percent of all hospital admissions utilizing the equipment) in an effort to establish formal referral agreements. If such a system cannot be accomplished the applicant must indicate why a multi-institutional system cannot be established; and

2) contact those facilities which are located within the estimated primary market area of the innovative equipment indicating the availability of the equipment and a contact person to discuss patient admission for the service; and

3) indicate in writing to the State Agency: admission policies for the service, procedures for acceptance of referrals, and a statement insuring that no restrictive admission policies will be established.

NOTICE OF ADOPTED AMENDMENTS

d) Staffing-Review Criterion

The applicant must document the number, type and professional qualifications of all personnel involved with the operation of the equipment. Also, the applicant must document the availability of surgical support for the removal of stones and organ repair.

e) Data Collection--Review Criterion

1) The State Agency shall collect data from all available sources for purposes of studying the efficacy of this equipment.

2) The applicant must document that it will provide utilization data, clinical data, and reports of clinical efficacy in comparison to other forms of treatment. The applicant must also document that it will provide a representative from the institution as a liaision to the State Board for purposes of annual data collection. A letter stating that, if approved, the applicant will participate by providing the required data and representative, will constitute sufficient documentation.

SUBPART H: CATEGORY OF SERVICE REVIEW CRITERIA--ACUTE MENTAL ILLNESS

Section 1110.720 Acute Mental Illness--Definitions

a) "Acute Mental Illness" means a crisis state or an acute phase of one of more specific psychiatric disorder in which a person displays one or more specific psychiatric symptoms of such severity as to prohibit effective functioning in any community setting. Persons who are acutely mentally ill may be admitted to an acute mental illness facility or unit under the provisions of the Mental Health and Developmental Disabilities Code (Ill. Rev. Stat. 1987, ch. 91 1/2, pars. 1-100 et seq.) which determines the specific requirements for admission by age and type of admission.

b) "Acute Mental Illness Facility or Unit" means a facility or a distinct ~~part of~~ unit in a facility which provides a program of acute mental illness treatment service (as defined below) and which is designed, equipped, organized, and operated to deliver inpatient and supportive acute mental illness treatment services; and which is licensed by the Department of Public Health under the

Hospital Licensing Act (Ill. Rev. Stat. 1987~~8~~, ch. 111~~2~~11 1/2, pars. 142 et seq.) or is a facility operated or maintained by the State or a state agency.

c) "Acute Mental Illness Treatment Service" means a category of service which provides a program of care for those persons suffering from acute mental illness. Such services are provided in a highly structured setting in a distinct psychiatric unit of a general hospital, in a private psychiatric hospital, or in a state-operated facility, to individuals who are severely mentally ill and in a state of acute crisis, in an effort to stabilize the individual and either effect his quick placement in a less restrictive setting or to reach a determination that extended treatment is needed. Acute mental illness is typified by an average length of stay of 45 days or less for adults and 60 days or less for children and adolescents.

SUBPART R: CATEGORY OF SERVICE REVIEW CRITERIA--GENERAL LONG-TERM CARE

Section 1110.1730 General Long-Term Care--Review Criteria

a) "Facility Size" - Review Criteria

No application for permit for construction of an new facility or for addition of beds will be approved if such project will result in a total general long-term care bed count in excess of 250 beds, unless the applicant can document that such facility would provide personalization of patient care and document evidence of quality care based on the experience of the applicant and compliance with the Agency's licensing standards, (77 Ill. Adm. Code: Chapter I, Subchapter c)(Long-Term Care Facilities)~~("Long-Term Care Facilities-Minimum-Standards;-Rules-and-Regulations"-of-the Illinois-Department-of-Public-Health)~~ over a two year period of time.

b) "Community Related Functions" - Review Criteria

In addition to fulfilling the purpose for which the permit is sought, a proposed project ~~should~~must indicate the extent to which each of the following will be met:

1) The provision of alternative, programmatic approaches to health facility institutionalization for the service or planning area's population, such as, but not limited to:

A) housing for the elderly;

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

B) day care centers;
C) outpatient or neighborhood health centers;
D) meals on wheels or nutrition programs; and/or
E) home health or other related programs.

2) Cooperation with and the receipt of the endorsement of community groups such as, but not limited to:

A) social, economic or governmental organizations; or
B) other concerned parties or groups.

c) "Variances to Computed Bed Need" - Review Criteria

The following variances are recognized by the State Board as a basis for granting approval to a project that is not in accord with computed bed need as determined by the Agency for General Long-Term Care:

1) The "Defined Population" Variance.

A) The proposed project must involve an existing or proposed new facility that has documented that it will be servicing a defined population group of a religious, fraternal or ethnic nature from throughout the entire health service area or from a larger geographic area. In addition to the previous requirements, the proposed project must provide documentation of the following: That the services provided by the proposed project are such that:

i) the services do not exist in the health service area where the facility is or will be located; and/or

ii) cannot be instituted at existing facilities within the health service area in sufficient number to accommodate the group's needs.

B) That the proposed number of beds is justified by providing documentation that the proposed project will achieve, within the first year of operation, an occupancy of 90% and that at least 85% of the residents needing the facility's services are members of the defined population group.

C) That the proposed project is either directly owned, sponsored or affiliated with the religious, fraternal or ethnic group that has been defined as the

population to be served by the project. Such documentation should include any legally-binding documents which would prove ownership, sponsorship or affiliation.

D) Documentation must be provided that there are an available number of patients/residents needing the facility's services and that the facility will include beds in both the Nursing Category of Service and either the Sheltered Care Category of Service or residential living arrangements which are not licensed by the Agency.

2) "Accessibility" Variance.

A) Entitlement to this variance is dependent on the proposed project's documentation that the proposed project will be providing a long-term care category of service which is not readily accessible to the general population of the given planning area. Factors affecting accessibility include, but are not limited to:

i) The lack of beds within a specific category of service; or

ii) Denominational, fraternal or ethnic admission restrictions; or

iii) Limitations on the number of public aid residents/patients; or

iv) Restrictive admission policies by facilities currently existing in the area.

B) In addition to the above, the proposed project must provide documentation that the proposed number of beds is justified and that the proposed project will achieve, within the first year of operation, an occupancy of 90% and that there are an available number of patients/residents needing the facility's services to meet this occupancy level.

C) Any acute care facility proposing to convert beds from an acute care service to long-term care beds, must document at least one of the following:

i) That the facility is having trouble placing

patients in long-term care facilities in the planning area due to a shortage of long-term care beds in the planning area or a shortage of medicare certified beds in the area in which patients can be placed; or

ii) That there exists in the facility a caseload of "DRG extended stay" patients that cannot be treated without the establishment of a long-term care unit and the facility must document that the number of "DRG extended stay" patients in the facility (for the latest 12 month period for which data is available) is sufficient to justify the establishment of a long-term care unit and the number of beds proposed; or

iii) That the facility can document that there are a sufficient number of patients with certain medical conditions (that cannot be appropriately moved to a setting outside of a hospital without risk to their lives), to justify the establishment of a long-term care unit and the number of beds being proposed.

iv) Documentation shall include: a summary of patient diagnosis and condition at the time of long-term care placement; a statement as to the number of patients who have been maintained in the hospital beyond DRG reimbursement limitations (see 42 CFR 223(1982)); statements by physicians as to the need to maintain DRG extended stay patients in a hospital rather than a nursing home setting; and waiting lists in existing skilled long-term care providers.

v) A positive evaluation on this criterion shall be granted when the potential number of patients documented by the applicant is reviewed against the proposed number of beds to determine if a 90% occupancy target can be maintained. Also, the hospital must prove that patients are too severely ill to be discharged to LTC providers.

3) "Continuum of Care" Variance.

A) The proposed project must be a component part of an over-all master plan which will provide a "continuum of care" for a geriatric population which includes

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

independent living and/or congregate housing (such as unlicensed apartments, highrises for the elderly, and retirement villages) and related health and social services. Such a proposal must be for the purposes of and serve only the residents of the housing complex and may be developed in on the two following ways:

i) The proposal may be developed after the housing complex has been established; or

ii) The proposal may be developed as a part of a total housing construction program, provided that, documentation is provided that the entire complex is one inseparable project and that there is a documented demand for the housing and that the licensed beds will not be built first, but will be built concurrent with or after the residential units.

B) In addition to the above, the proposed project must provide documentation of the following:

i) That the proposed number of beds is justified by providing documentation that there are an available number of patients/residents needing the facility's services. The proposed number of beds may not exceed one licensed long-term care bed for every four apartments or independent living units; and

ii) That the proposed general long-term care facility will include beds in both the Nursing Category of Service and the Sheltered Care Category of Service in a ratio not to exceed 2 Nursing Care beds to every Sheltered Care bed; and

iii) That the proposed project will make or has made provision in its written policies of operation that if a resident of the retirement community is transferred to the long-term care unit, that the resident will not lose his or her apartment unit or be transferred to another long-term care facility solely because of the resident's altered financial status or medical indigency.

SUBPART W: CATEGORY OF SERVICE REVIEW CRITERIA--EXTRACORPOREAL SHOCK WAVE LITHOTRIPSY

Section 1110.2220 Extracorporeal Shock Wave Lithotripsy--Definitions

"Extracorporeal Shock Wave Gall Stone Lithotripsy" means shock waves induced from outside the body to destroy gall stones.

"Extracorporeal Shock Wave Lithotripsy" means a category of service which utilizes shock waves induced from outside the body to destroy kidney (or other) stones.

"Extracorporeal Shock Wave Lithotripters" are those pieces of equipment which exert high pressure on kidney (or other) stones by means of shock waves, introduced from outside of the body, so that the stones crumble into sand-grain-sized particles.

(Source: Amended at 13 Ill. Reg. 16078, effective Sept. 29, 1989)

Section 1110.2230 Extracorporeal Shock Wave Lithotripsy--Review Criteria

a) Initial Introduction of Equipment--Review Criteria

1) It is determined that approximately 5,000 candidates for kidney stone extracorporeal shock wave lithotripsy would occur annually.

2) The Illinois Health Facilities Planning Board has determined that six pieces of equipment designed to treat kidney stones ~~is~~are sufficient to meet the needs of the Illinois population.

~~3) The Illinois Health Facilities Planning Board has determined that in the case of gall stone extracorporeal shock wave lithotripsy, only one piece of equipment is needed at this~~

~~time in order to study the effectiveness of this treatment modality to meet the needs of the Illinois population.~~

b) Location--Review Criterion

Due to the large population needed to generate sufficient kidney stone caseload for machine efficiency, it is essential that proposed locations for kidney stone lithotripsy be geographically accessible to a population group of at least 2 million persons. In order to achieve accessibility, four machines shall be located in the Chicago S.M.S.A. (within the Chicago City limits) and two downstate in locations which will serve a population of 2 million persons who currently are unserved by existing equipment. An "unserved" population shall be considered those individuals who reside outside the primary market area of existing kidney lithotripter services.

c) Multi-Institutional Systems--Review Criterion

Due to the large primary markets for equipment for both kidney stone and gall stone lithotripsy ~~of this type~~services, it is essential that no restrictions on access be established by the applicant. The applicant proposing to acquire a ~~kidney~~ lithotripter must:

1) contact those facilities within its primary market (a geographic area reflecting at least 30 percent of all hospital admissions utilizing the equipment) in an effort to establish formal referral agreements. If such a system cannot be accomplished the applicant must indicate why a multi-institutional system cannot be established; and

2) contact those facilities which are located within the estimated primary market area of the innovative equipment indicating the availability of the equipment and a contact person to discuss patient admission for the service; and

3) indicate in writing to the State Agency: admission policies for the service, procedures for acceptance of referrals, and a statement insuring that no restrictive admission policies will be established.

d) Staffing-Review Criterion

The applicant must document the number, type and professional qualifications of all personnel involved with the operation of the equipment. Also, the applicant must document the availability of surgical support for the removal of stones and organ repair.

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

e) Data Collection--Review Criterion

1) The State Agency shall collect data from all available sources for purposes of studying the efficacy of this equipment.

2) The applicant must document that it will provide utilization data, clinical data, and reports of clinical efficacy in comparison to other forms of treatment. The applicant must also document that it will provide a representative from the institution as a liasion to the State Board for purposes of annual data collection. A letter stating that, if approved, the applicant will participate by providing the required data and representative, will constitute sufficient documentation.

A) the applicant facility is a teaching institution; and

B) the transplantation program will be performed in conjunction with graduate medical education.

2) Documentation shall consist of a written agreement between the applicant and the medical school detailing the relationship of the transplantation program to graduate medical education initiatives; and compliance with the medical education general review criterian.

~~b) Establishment of Extra-Renal Organ Transplantation Inventory~~

~~To accurately compile an inventory of providers of extra-renal organ transplantation services, the following conditions are established relative to the "grandfathering" of providers into the extra-renal organ transplantation category of service. Facilities shall be recognized as having the extra-renal organ transplantation category of service if documentation can be~~

7) Date filed in Agency's Principal Office: October 2, 1989.

8) Reason for Emergency: These emergency amendments are promulgated in response to the statutory change effected by P.A. 86-44. This legislation, effective October 1, 1989, amends Section 1f of the Retailers' Occupation Tax Act to add a new category of eligibility for the Enterprise Zone Machinery and Equipment/Pollution Control Facilities Sales Tax Exemption. This change allows businesses to qualify for certification by investing a minimum of $40,000,000 and retaining at least 90% of the full-time jobs in place at the time of certification for the duration of the exemption. The Department's policies must be effective immediately to enable eligible businesses to proceed with the preparation of an application to the Department for approval and certification under the Enterprise Zone Machinery and Equipment/Pollution Control Facilities Sales Tax Exemption.

High unemployment is one of the gravest problems this country faces today. Economic incentives which create or retain jobs will improve the welfare of more Illinois citizens by allowing them to attain or maintain employment.

9) A Complete Description of the Subjects and Issues Involved: P.A. 86-44 amends Section 1f of the Retailers' Occupation Tax Act by providing that a business can qualify for the Enterprise Zone Machinery and Equipment/Pollution Control Facilities Sales Tax Exemption by investing $40,000,000 in an Enterprise Zone resulting in the retention of at least 90% of the full-time jobs in place at the time of the exemption.

Section 520.900 Definitions
EMERGENCY

The following definitions are applicable to Subpart I.

"Act" means Section 1d-1f of the Retailers' Occupation Tax Act (Ill. Rev. Stat. 1987, ch. 120, pars. 440d-440f, as amended by P.A. 86-44, effective October 1, 1989).

"Department" means the Department of Commerce and Community Affairs.

"Eligible investment" shall consist of the following two categories of expenditures:

Investments in qualified property which are placed in service in an Enterprise Zone. Qualified properties are statutorily defined in Section 2-201(f) of the Illinois Income Tax Act (Ill. Rev. Stat. 1987, ch. 120, par. 2-201 (f)).

Noncapital/nonroutine investments, and associated service costs (direct labor or contractual fees), placed in service in an Enterprise Zone and made for the improvement or renovation of qualified properties. These activities are undertaken for the purposes of improving productive capacity, efficiency, product quality or competitive position. The investments cannot be repetitious, commonplace or associated with regular maintenance expenditures, and would include, for example, rebuilt cast house furnaces, rebuilt soaking furnaces, a rebuilt hot line control system, restructured plant layout, and installed equipment to rebuild a logeman baler. Noncapital/nonroutine investments are those that do not qualify for the investment tax credit pursuant to Section 2-201(f) of the Illinois Income Tax Act.

Businesses utilizing this definition must provide detailed information as set forth in Section 520.920(a) regarding the purpose, scope, justification and benefits of these

noncapital/nonroutine investments, including defined project start and completion target dates, and a level of expenditures of at least $40,000.

"Full-time employee" means a person, employed by the taxpayer or any wholly-owned subsidiary of the taxpayer, who works a minimum of 35 regular hours per week for 52 weeks for a minimum total of 1,820 hours per year. Vacations, paid holidays and sick time are included in this computation. Overtime is not considered regular hours.

"Full-time equivalent job" means the number of employees required to equal one full-time employee. For purposes of this definition, "employee" means a person who works a minimum of 35 hours per week for a minimum of 13 consecutive weeks to be counted toward full-time equivalency.

"Job creation" means at least 200 full-time equivalent employees have been hired over the number of full-time equivalent employees that were employed by the applicant as of December 31 of the previous year, or the 1st day of the applicant's most recently completed taxable year, whichever is later. Job titles being filled or re-filled as a result of strikes cannot be computed as job creation. A majority of the "jobs created" must be in the enterprise zone in which the eligible investment is made.

"Job retention" means that at least 2,000 full-time employees will remain employed in Illinois as a direct result of the eligible investment and ~~that~~ the employees would have lost their jobs had the investment not been made or that at least 90% of the full-time jobs in place on the date on which the exemption is granted will remain in place for the duration of the exemption. A majority of the "jobs retained" must be in the enterprise zone in which the eligible investment is made.

"Minimum investment" means the amount of eligible investments which must be made to qualify for the exemption. Under the job creation criteria the minimum eligible investment which must be made in the enterprise zone is $5 million. Under the job retention criteria the minimum eligible investment which must be made in the enterprise zone is $40 million.

"Placed in service" means the state or condition of readiness and availability for a specifically assigned function as defined in 26 CFR 1.46-3(d). Eligible investments in qualified property as defined in Section 2-201 (f) of the Illinois Income Tax Act shall be considered placed in service on the earlier of

5) Effective Date of Amendments: September 27, 1989

6) If these emergency amendments are to expire before the end of the 150-day period, please specify the date on which they are to expire: Not applicable.

7) Date filed in Agency's Principal Office: September 27, 1989.

8) Reason for Emergency:

Unemployment is one of the gravest problems this country faces today. The Industrial Training Program (ITP) serves to enhance employment opportunities by providing funds to assist Illinois employers in the training of their workforce and to facilitate self-employment thereby improving the welfare of Illinois citizens.

Emergency amendments are being adopted to permit the department to issue grant application packages and to award ITP grants in a timely fashion under the four new eligible activities established by P.A. 86-813, which was signed and became effective on September 7, 1989. In FY'90, the department received an appropriation of $4,000,000 to award as grants specifically for these four activities. As such, it is imperative that we begin to implement this program as soon as possible to ensure that applications are disseminated to eligible applicants and

that the target audiences identified in this legislation are as fully served as the appropriation permits. The legislation was not signed until the first quarter of the grant year was nearly over. Therefore, we must expedite the awards during the remaining three quarters of the fiscal year.

9) A Complete Description of the Subjects and Issues Involved:

P.A. 86-813, effective September 7, 1989, amended the ITP by adding four eligible activities for which ITP grants may be awarded. These activities are as follows: training of new or existing employees of Illinois companies that seek to develop new overseas markets for products or services; customized training of employees of companies located in the state enterprise zones; training of existing employees of manufacturing facilities that are implementing quality control programs, but are not making new capital investments; and self-employment training of the unemployed and underemployed with comprehensive, competency-based instructional programs and services.

To accommodate these changes the rules were recodified (effective September 13, 1989) and are now being divided into three subparts: "SUBPART A: GENERAL REQUIREMENTS", "SUBPART B: INDUSTRIAL FIRMS AND MAJOR EMPLOYER APPLICANTS", and "SUBPART C: SECONDARY AND POST-SECONDARY EDUCATION INSTITUTION APPLICANTS". Any references to Sections within this Part have been corrected to correspond to the recodified text. The general program requirements found in Sections 2650.10 through 2650.50 of Subpart A have been expanded to include provisions for the new legislation. Since P.A. 86-813 expanded the eligible program activities, provisions for application procedures, evaluation, and selection for industrial firms or major employer applicants (Sections 2650.110, 2650.130, and 2650.140 of Subpart B) have been revised. Subpart C, Sections 2650.210 through 2650.250, specifies provisions governing application procedures, documentation, and evaluation; selection for funding; and reporting requirements for secondary and post secondary education applicants.

10) Are there any proposed amendments to this Part pending? No.

11) Statement of Statewide Policy Objectives: This rulemaking does not create or expand a state mandate as defined in Section 3(b) of the State Mandates Act (Ill. Rev. Stat. 1987, ch. 85, par. 2203).

12) Information and questions regarding these amendments shall be directed to:

Section 2650.130 Application Evaluation
EMERGENCY

The Department shall screen all applications to determine that all requirements of the application package have been addressed. Complete applications will be reviewed and evaluated comparatively by Department staff ~~on a monthly basis~~. Applicants will be notified by letter of deficiencies in applications and given an opportunity to correct such deficiencies through resubmission. This review and evaluation process will be completed within ~~75~~ seventy-five days of receipt of all required information. Department staff will conduct a technical and financial evaluation of each application.

a) Technical Evaluation Component - Each application will be reviewed to assure compliance with technical program requirements as detailed in Sections 2650.30 and ~~2650.50~~ 2650.120.

b) Financial Evaluation Component - The company's financial statements, including the annual balance sheets and profit and loss statements for the past three years, as well as the most recent ninety days, and a three year projected balance sheet and profit and loss statement, as well as a one year monthly cash flow statement, will be reviewed through a standard credit analysis which will determine the: liquidity and debt coverage for the project; ability of the company to manage debt; business

trends; and projected earnings. This data will be compared to similar data for companies in the same industry using "Robert Morris Associates Annual Statement Studies" (1985), if such industry is evaluated by this source. This standard credit analysis will determine the financial stability of the company.

c) Application ~~Ranking~~ Evaluation - Those applications determined eligible for funding based on the evaluation process described in subsections (a) and (b), will be ~~ranked~~ evaluated according to the following criteria~~: which are equally weighted:~~

1) Project readiness (e.g., time schedule for project initiation, etc.);

2) Jobs to be created or retained (e.g., number of full-time jobs, cost per job, etc.) or individuals who will receive training;

3) New capital investment (e.g., ~~capital investment per job totals an average of $20,000,~~ training directly relates to jobs, etc.);

4) Leveraging of other training resources (e.g., amount of funding available, funding received from other sources, etc.);

5) Financial feasibility of the project as determined by the financial evaluation described in subsection (b); and

6) Other significant benefits or impact (e.g., project is for high technology, or export oriented)~~;~~; and

7) Level of performance by applicants under previous Industrial Training Program grant awards.

(Source: Emergency amendments at 13 Ill. Reg. 16126, effective September 27, 1989, for a maximum of 150 days)

Section 2650.140 Selection for Funding
EMERGENCY

a) Quarterly allocations of funds will be established by the Department each fiscal year. Grant awards will be made on a monthly basis within the parameters of the quarterly allocations. ~~Those applications that rank highest on a comparative basis (as described in Section 2650.60) will be eligible for funding.~~ Due to funding limitations, a grant ceiling of 50% of project costs has been established by the Department. The Director will waive

this funding limitation, allowing support for up to 66 2/3% of a project's cost when the company demonstrates to the Department through a financial analysis (see Section ~~2650.60~~ 2650.130(b)) that the 50% funding limitation would prohibit an otherwise approved project, in accordance with Sections ~~2650.60~~ 2650.130 and ~~2650.70~~ this Section, and subsequent job creation/retention from occurring.

b) Those projects which are not funded solely due to a lack of available funds will be considered eligible for funding during the next quarter, unless the applicant requests otherwise. Such applications will receive no preferential treatment and must again be comparatively ~~ranked~~ evaluated against all applications being considered for funding during the quarter. Should the Department once again lack funds to support the project, the application will be denied.

c) A set-aside fund will be established in order to take action on those applications requiring immediate attention (e.g., an industrial project in need of a commitment, as a part of an overall Department incentive offer to locate in Illinois; a project which could not move forward without Department funding). Both the set-aside and the quarterly allocations are targeted figures based on the historical demand for funds which shall be changed to allow for the types, number, and quality of requests received throughout the year. The Department will place the highest priority on grants to manufacturing firms that create new jobs.

d) ~~Subsequent to the quarterly evaluation process during which applications were considered for funding, respective~~ Applicants will receive written notification of funding determinations.

NOTICE OF EMERGENCY AMENDMENT

1) The Heading of the Part: AID TO FAMILIES WITH DEPENDENT CHILDREN

2) Code Citation: 89 Ill. Adm. Code 112

3) Section Number: Emergency Action:

112.154 Amendment

4) Statutory Authority: Sections 4-1.6 and 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1987, Ch. 23, Pars. 4-1.6 and 12-13)

5) Effective Date of Amendments: October 2, 1989

6) If this emergency amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: Not applicable

7) Date Filed in Agency's Principal Office: October 2, 1989

8) Reason for Emergency: These rules involve very complex issues which can have a significant budgetary impact on the Department's budget. While the law has been effective several months, it allows many options. Internal discussion did not resolve how the Department would handle these options until recently, not in time to implement the program through the regular rulemaking process. The changes must be implemented October 1, 1989, and will benefit most institutionalized persons who have spouses in the community as well as benefitting those spouses in the community. Therefore, an emergency Amendment was required.

9) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the institutionalized spouse's income to be set aside and used

DEPARTMENT OF PUBLIC AID

NOTICE OF EMERGENCY AMENDMENT

by the community spouse or for the benefit of the community spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

SUBPART G: FINANCIAL FACTORS OF ELIGIBILITY

Section 112.154 Property Transfers
EMERGENCY

a) The provisions for the transfer of property (i.e., assets) do not affect eligibility for applications filed on or after October 1, 1989, regardless of the date of the transfer, or to applications filed prior to October 1, 1989, if the transfer occurs on or after October 1, 1989.

b) The provisions listed below apply to applications filed prior to October 1, 1989, and only with respect to property (i.e., assets) transferred prior to October 1, 1989.

~~a)~~ 1) A transfer of assets occurs when an applicant or recipient buys sells or gives away real or personal property or changes (e.g., changes from joint tenancy to tenancy in common) the way property is held.

~~b)~~ 2) A transfer is allowable if:

EMERGENCY

~~1)~~ A) the transfer occurred more than two years from the date of review;

~~2)~~ B) a fair market value was received. Fair market value is the price that an article or piece of property might be expected to bring if offered for sale in a fair market. Fair market value is determined by statements obtained from institutions, community members, etc. (e.g., bankers, jewelers, reputable realtors, etc.) recognized as having knowledge of property values;

~~3)~~ C) the transfer was involuntary (e.g., tax sales, judgment sales, etc.);

~~4)~~ D) the transfer was due to separation, divorce or other settlement (i.e., when the court orders a settlement of a client's assets or when the client and the client's spouse divide their assets in half without a court order);

~~5)~~ E) the transfer was a change from an individual to joint bank account;

~~6)~~ F) the transfer was of exempt assets;

~~7)~~ G) the transfer was an equal division of marital assets.

~~c)~~ 3) If the transfer does not fall within the listing of subsection (b) above, the transfer will be reviewed to determine if the transfer was made to qualify for or increase the need for assistance. If the transfer was made to qualify for or increase the need for assistance, the client is ineligible until whichever occurs first:

~~1)~~ A) the asset is returned; or

~~2)~~ B) a fair market value is paid to the client; or

~~3)~~ C) the period of time the asset would meet the client's needs has passed; or

~~4)~~ D) two years has passed.

~~d)~~ 4) If a client transfers an asset which is not allowable the client must verify that the transfer was not made to qualify for assistance (e.g., a bank repossesses the property. The client must provide a copy of the repossession paper(s) to the Department).

~~e)~~ ~~1)~~5) A) The client is ineligible for assistance for the number of months that the asset would have met his/her needs up to 2 years from the date of the transfer. (To determine the number of months the asset would have met the client's need, divide the amount of the asset by the AFDC Standard of Need plus incurred medical expenses.)

~~2)~~ B) For applicants, the first month of ineligibility is the month of application.

~~3)~~ C) For recipients, the first month of ineligibility is the month assistance was discontinued because of the transfer.

6) If these Emergency Amendments are to expire before the end of the 150-day period, please specify the date on which it is to expire: N/A

7) Date Filed in Agency's Principal Office: October 2, 1989

8) Reason for Emergency: These rules involve very complex issues which can have a significant budgeting impact on the Department's budget. While the law has been effective several months, it allows many options. Internal discussion did not resolve how the Department would handle these options until recently, not in time to implement the program through regular rulemaking. The changes must be implemented October 1, 1989, and will benefit most institutionalized persons who have spouses in the community as well as benefitting those spouses in the community. Therefore, an Emergency Rule was required.

9) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the

DEPARTMENT OF PUBLIC AID

NOTICE OF EMERGENCY AMENDMENTS

institutionalized spouse's income to be set aside and used by the community spouse or for the benefit of the community spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

3) the transfer was involuntary (e.g., tax sales, judgment sales, etc.);

4) the transfer was due to separation, divorce or other settlement (e.g., when the court orders a settlement of a client's assets or when the client and the client's spouse divide their assets in half without a court order);

5) the transfer was a change from an individual to joint bank account;

6) the transfer was of exempt assets;

7) the transfer was an equal division of marital assets.

c) If the transfer does not fall within the listing of subsection (b) above, the transfer will be reviewed to determine if the transfer was made to qualify for or increase the need for assistance. If the transfer was made to qualify for or increase the need for assistance, the client is ineligible until whichever occurs first:

1) the asset is returned; or

2) a fair market value is paid to the client; or

3) the period of time the asset would meet the client's needs has passed; or

4) two years has passed.

e) The client is ineligible for assistance for the number of months that the asset would have met his/her needs up to two (2) years from the date of the transfer. These provisions do not apply to individuals who reside in the community.

a) A transfer of assets occurs when a resident of a long term care facility buys, sells or gives away real or personal property or changes (e.g., change from joint tenancy to tenancy in common) the way property is held.

b) A transfer is allowable if:

1) the transfer occured more than thirty (30) months from the date of application;

3) homestead property was transferred to:

A) a spouse;

B) the individual's child who is under age 21;

NOTICE OF EMERGENCY AMENDMENT

1) The Heading of the Part: GENERAL ASSISTANCE

2) Code Citation: 89 Ill. Adm. Code 114

3) Section Number: Emergency Action:

114.270 Amendment

4) Statutory Authority: Sections 6-1.2 and 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1987, Ch. 23, Pars.6-1.2 and 12-13)

5) Effective Date of Emergency Amendment: October 2, 1989

6) If this Emergency Amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: Not applicable

7) Date Filed in Agency's Principal Office: October 2, 1989

8) Reason for Emergency: These rules involve very complex issues which can have a significant budgeting impact on the Department's budget. While the law has been effective several months, it allows many options. Internal discussion did not resolve how the Department would handle these options until recently, not in time to implement the program through the regular rulemaking process. The changes must be implemented October 1, 1989, and will benefit most institutionalized persons who have spouses in the community as well as benefitting those spouses in the community. Therefore, an Emergency Amendment was required.

9) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the institutionalized spouse's income to be set aside and used by the community spouse or for the benefit of the community

DEPARTMENT OF PUBLIC AID

NOTICE OF EMERGENCY AMENDMENT

spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

Section 114.270 Property Transfers
EMERGENCY

a) The provisions of the transfer of property (i.e., assets) do not affect eligibility for applications filed on or after October 1, 1989, regardless of the date of the transfer or to applications filed prior to October 1, 1989, if the transfer occurs on or after October 1, 1989.

b) The provisions listed below apply to applications filed prior to October 1, 1989, and only with respect to property (i.e., assets) transferred prior to October 1, 1989.

~~a)~~ 1) A transfer of assets occurs when an applicant or recipient buys sells or gives away real or personal property or changes (e.g., changes from

joint tenancy to tenancy in common) the way property is held.

~~b)~~ 2) A transfer is allowable if:

~~1)~~ A) the transfer occurred more than two years from the date of review;

~~2)~~ B) a fair market value was received. Fair market value is the price that an article or piece of property might be expected to bring if offered for sale in a fair market. Fair market value is determined by statements obtained from institutions, community members, etc. (e.g., bankers, jewelers, reputable realtors, etc.) recognized as having knowledge of property values;

~~3)~~ C) the transfer was involuntary (e.g., tax sales, judgment sales, etc.);

~~4)~~ D) the transfer was due to separation, divorce or other settlement (i.e., when the court orders a settlement of a client's assets or when the client and the client's spouse divide their assets in half without a court order);

~~5)~~ E) the transfer was a change from an individual to joint bank account;

~~6)~~ F) the transfer was of exempt assets;

~~7)~~ G) the tranfer was an equal division of marital assets.

~~c)~~ 3) If the transfer does not fall within the listing of subsection (b) above, the transfer will be reviewed to determine if the transfer was made to qualify for or increase the need for assistance. If the transfer was made to qualify for or increase the need for assistance, the client is ineligible until whichever occurs first:

~~1)~~ A) the asset is returned; or

~~2)~~ B) a fair market value is paid to the client; or

~~3)~~ C) the period of time the asset would meet the client's needs has passed; or

~~4)~~ D) two years has passed.

~~d)~~c) If a client transfers an asset which is not allowable the client must verify that the transfer was not made to qualify for assistance (e.g., a bank repossesses the property. The client must provide a copy of the repossession paper(s) to the Department).

~~e)~~d) 1) The client is ineligible for assistance for the number of months that the asset would have met his/her needs up to 2 years from the date of the transfer. (To determine the number of months the asset would have met the client's need, divide the amount of the asset by the GA Standard of Need plus incurred medical expenses.)

2) For applicants, the first month of ineligibility is the month of application.

3) For recipients, the first month of ineligibility is the month assistance was discontinued because of the transfer.

NOTICE OF EMERGENCY AMENDMENT

1) The Heading of the Part: SUPPORT RESPONSIBILITY OF RELATIVES

2) Code Citation: 89 Ill. Adm. Code 103

3)

Section Number:	Emergency Action:
103.10	Amendment

4) Statutory Authority: Sections 10-2 and 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1987, Pars. 10-2 and 12-13)

5) Effective Date of Amendment: October 2, 1989

6) If this Emergency Amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: Not applicable

7) Date Filed in Agency's Principal Office: October 2, 1989

8) Reason for Emergency: These rules involve very complex issues which can have a significant budgeting impact on the Department's budget. While the law has been effective several months, it allows many options. Internal discussion did not resolve how the Department would handle these options until recently, not in time to implement the program through the regular rulemaking process. The changes must be implemented October 1, 1989, and will benefit most institutionalized persons who have spouses in the community as well as benefitting those spouses in the community. Therefore, an Emergency Amendment was required.

9) A Complete Description of the Subjects and Issues Involved: Rulemaking appearing in the Illinois Register today under 89 Ill. Adm. Code 103, 112, 113, 114 and 120 implement what has been characterized as the Spousal Impoverishment Sections of the Medicare Catastrophic Coverage Act. The intent of these provisions is to grant sufficient resources from an institutionalized spouse to a spouse living in the community to allow the community spouse to remain off public assistance. These policies went into effect October 1, 1989.

These provisions allow the institutionalized spouse to transfer a certain level of assets to the community spouse. They also allow a certain amount of the

DEPARTMENT OF PUBLIC AID

NOTICE OF EMERGENCY AMENDMENT

institutionalized spouse's income to be set aside and used for the benefit of the community spouse rather than applied towards the institutionalized spouse's cost of care in the institution.

The Department made three key decisions in formulating these rules. First, it was determined not to charge any fee for a determination of a couple's assets though a fee is allowed under Federal law. Second, the Department has set the asset level that may be transferred for the use of the community spouse at $60,000, the maximum allowed by Federal law. Third, the Department has set the income level that may be set aside for the benefit of the community spouse at $1,500 per month, the maximum allowed by Federal law.

It is hoped that these changes will mean that a person need not be placed in a position of having to use up all income and resources when that person's spouse has to go into an institution.

10) Are there any Proposed Amendments pending to this Part? No

11) Statement of Statewide Policy Objectives: This rulemaking has no effect on local governmental units.

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash. (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-8577/86; A-724)) The codes for both columns are listed below. For a complete listing of the Titles of the *Illinois Administrative Code*, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.
